Introduction to Data Analytics - Course Policy (Version 1)

1. Course Overview

This 8-week course introduces learners to data cleaning, visualisation and basic statistics using Python. Classes run on Mondays and Wednesdays from 6:00 PM to 8:00 PM.

2. Eligibility

Applicants must hold a high school diploma and have basic computer skills. No prior programming experience is required.

3. Fees and Payment

The total course fee is $400. Payment is due by 1 March 2025. Refunds are available until the end of week 1.

4. Assessment

Final grade: 40% weekly quizzes, 60% final project. A minimum attendance of 75% is required to receive the certificate.

5. Contact

Questions should be sent to the course coordinator, Ms. Sarah Collins, at training@example.com.
